## PROJECTS

### Project | Source code MuseStation | Source Code

**Technologies Used:** HTML, CSS, and JavaScript

**Project Description:** MuseStation is a dynamic web application designed to provide an interactive music experience.

**Responsibilities:**

- Designed and implemented the user interface using HTML and CSS.
- Utilized JavaScript to add interactivity and enhance the user experience.
- Ensured the website is fully responsive and compatible across different browsers.
- Implemented features such as play, pause, skip, and volume control for the music player.

**Aims:**

- Developed a dynamic and responsive music streaming platform, MuseStation, using a combination of HTML, CSS, and JavaScript.
- Aimed at providing users with an immersive and seamless music listening experience.

### CRYPTOGRAPHY | Source Code

**Technologies Used:** Python, GUI

**Project Description:**

- Aimed at providing secure encryption and decryption functionalities for sensitive data.
- Developed a robust and user-friendly cryptography tool using Python with a graphical user interface (GUI).
